LeetCode

Summary

Full Stack Developer and SIH 2024 Winner with hands-on experience in MERN stack development, 500+ LeetCode problems solved, and a 1800+ contest rating.

Education

Meghnad Saha Institute of Technology

Aug 2023 – Jul 2027

Bachelor of Technology in Computer Science and Engineering (CGPA: 7.59/10.00)

Kolkata, India

Higher Secondary Education (83%)

2022

Secondary Education (85%)

2020

Skills

Programming Languages: Java, C, JavaScript

Frontend: HTML, CSS, React, Bootstrap, Tailwind CSS, Material UI, Chart.js

Backend: Node.js, Express.js

Databases: MongoDB, SQL, DBMS

Tools: Git, GitHub, Postman, Figma (UI/UX Design)

Technologies: RESTful APIs, JWT Authentication

Soft Skills: Communication, Leadership, Teamwork, Problem Solving

Projects

Civix | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Built a full-stack civic engagement platform enabling citizens to create petitions, participate in public polls, and track official responses.
- Designed scalable MongoDB schemas and developed secure RESTful APIs with JWT authentication and role-based authorization.
- Developed real-time analytics dashboards for sentiment trends, engagement metrics, and governance reporting.
- Led end-to-end development including database design, backend APIs, frontend integration, and deployment on Render and Vercel.

Pinio | React.js, JavaScript, Tailwind CSS, Web Audio API, Webcam API, Librosa

[GitHub](#)

- Building an interactive virtual piano that maps keyboard inputs to real-time musical notes using the Web Audio API.
- Integrating Librosa-based pitch detection to analyze uploaded audio and provide visual feedback for musical learning.
- Implementing Webcam API support for synchronized singing practice and video recording.
- Designing a modular architecture to support future AI-powered music learning and performance evaluation features.

Experience

Infosys Springboard

Sep 2025 – Nov 2025

Full Stack Developer Intern

Remote

- Worked on **Civix**, an enterprise-level Digital Civic Engagement & Petition Platform, collaborating with a cross-functional team to design, develop, test, and deploy full-stack application modules using the MERN stack.
- Contributed to backend API development, frontend integration, database design, authentication workflows, and version control using Git.
- Presented daily project progress and milestones, enhancing communication and presentation skills while earning positive feedback for the quality of the project.

Achievements

- Smart India Hackathon 2024 Winner** – Contributed to **Project Udayaam**, a web platform designed to streamline and standardize operational workflows for under-resourced schools across India, securing 1st place at the national grand finale.

Certifications

- C Programming** – Internshala

- Java Programming** – Apna College
